# Your Home Care Nursing Specialist

EVERY LIFE. EVERY MOMENT. EVERY DAY.

C O N S U M E R   D I R E C T   C A R E   N E T W O R K

# A Culture of Caring for You

**Your home care is important** to getting well or staying healthy. Our nursing services support your needs regardless of the level of care or length of time you need services. Our in-home private duty nursing services is one line in our in-home care services. Our nursing service is available on an intermittent, long-term or hourly basis.

## **Brain and Spinal Cord Injury Care:**

Licensed nurses provide an individualized care plan to meet your needs while remaining in your home. They work diligently to ensure the highest level of independence while preventing acute and chronic complications.

## **Pediatric Specialty:**

We provide up to 24 hour/day care to pediatric members with illnesses/disabilities. Nurses provide tracheostomy care, colostomy care, feeding tube management, medication management, aspiration monitoring, education, and an array of other skilled services to meet the child's needs. Additionally, our nurses pride themselves on creating individualized care plans and implementing all orders and therapies in daily activities with your family.

## **Diabetes Management and Care:**

Our nurses provide an array of in-home diabetic support from medication management and insulin therapy to diabetic nail care. We provide education and prevention of complications due to diabetes.

## **Ventilator and Tracheotomy Care and Management:**

We offer 24 hour/day care to support members requiring ventilation support. Our nurses provide routine tracheostomy care and suctioning. Nurses will assess, monitor, educate, and deliver medications and treatments as ordered from your physician.

## **Urinary and Bowel Care Management:**

Our qualified nurses can manage and perform consistent bowel care regimes as well as foley or suprapubic catheter changes monthly or as needed.

## **Chronic Wound Care:**

You are provided in-home chronic wound care management following your primary care provider's orders. We also collaborate with your primary care provider and/or wound care clinic to ensure you are getting the best wound care and on-going monitoring of skin integrity.

## **Medication Management:**

Our nurses provide daily, weekly, and monthly support for your medication management needs.

## **Personal Response System:**

To ensure you or your loved ones are safe, our staff can assist with installing a medical alarm pendent that can automatically detect falls in and around the home and get access to help quickly. Our staff will provide support to ensure the medical alarm is functioning properly and be able to assist and troubleshoot any issues. It's an excellent choice for those with a history, risk, or fear of falling.

**We are here to meet and exceed your needs.**
