

Mobile Caregiver+ Installing the App

Mobile Caregiver+ is an application used for Electronic Visit Verification. To install the app you must have a smart device enabled to track your location using GPS.

Getting the App

1. Go to your **App Store** (iOS) or **Google Play Store** (Android).
2. Search for **Mobile Caregiver+**
 - Select **Get** on iOS (Fig. 01)
 - Select **Install** on Android (Fig. 02)
3. Once installed, **open the app**.

In order for the app to work, it must have access to your location at the start and end of a visit/shift. If this function is NOT enabled the app will NOT work and you will NOT be able to record visit/shift data.

4. Select OK to give access to your location at the start and end of a visit/shift. (Fig. 03)
5. Select **While using the app** to allow Mobile Caregiver+ access to this device's location when starting and ending a visit/shift. (Fig. 04)
